

School wise internship reports showing student engagement in activities claimed

From the year 2015 to 2020 around 20 schools is selected for practice teaching in palakkad district according to the convenience of the students. Following are the activities students involve during the 5 month practice teaching.

- 1) Reflective journals
The student teachers are expected to record their experiences, observations.
- 2) Classroom teaching
- 3) Lessons for health and physical education
- 4) Preparation and administration of achievement test and diagnostic test
- 5) Conducting case study
- 6) Administration of psychological tools
- 7) Organizing and participating in co curricular activities
- 8) Innovative program
- 9) Beyond the class activities
- 10) Teaching performance as evaluated by the teacher educator
- 11) ICT related expertise
- 12) Liason with the school

- 1) Class room teaching is the most important part of internship which is always successfully completed by our students every year
- 2) In our college as well as in the schools teachers regularly monitor students performance and will give them necessary instructions
- 3) Time table for internship is prepared by school authorities
- 4) Students counseling is provided by our students in schools during internship. Counseling makes them more aware about their choices and goals. They make better choices in school as well get mentally prepared for the future life. A proper counseling can help students talk openly about their issues.
- 5) PTA meeting is conducted in schools as well as in schools where interaction between students and teachers is always make a way to clear all doubts
- 6) Assignments after the class are given. It can be as projects, seminars etc
- 7) All academic and cultural activities are organized and our students participate actively
- 8) All documents is maintained for presenting during practical examinations
- 9) Administration work is provided
- 10) Progress report is also maintained
